

ENVIRONMENTAL MONITORING OF AQUATIC ECOSYSTEMS

Manitoba: March 1-4, 2022

Saskatchewan: March 8-11, 2022

Alberta: March 15-18, 2022

If your land has been impacted by the Enbridge Line 3 Pipeline Project and you are interested in learning more about the environment, Peguis First Nation along with the Line 3 Indigenous Advisory and Monitoring Committee and AAE Tech Services Inc. will be putting on a 4-day virtual course focused on providing impacted First Nation participants with the essential skills and knowledge required to conduct environmental assessments and monitoring of aquatic ecosystems.

Virtual
