What Does the CER Regulate in your Province?

Canada Energy Regulator | Régie de l'énergie du Canada

- In Alberta, the CER regulates pipelines that cross international and provincial boarders and the NGTL system.

The CER's Role in Emergency Management

Our regulations address "the four pillars of EM":

- Mitigation and Prevention
- Preparedness
- **Response**
- Recovery

CER Priorities During Emergencies

The CER's top priorities in any emergency are to make sure that:

- *people are safe; and*
- *property & the environment are protected.*

Canada

What happens when a Regulated Company has an Incident?

We require that companies immediately notify the Transportation Safety Board and the CER.

Once notified we ensure companies provide us with:

- Description of injuries or environmental harm.
- Status of nearby residents, communities or property.
- Confirmation that Indigenous Nations have been notified.
- Status of company emergency response plan activation.

"The CER requires its regulated companies to notify and communicate with impacted parties including Indigenous Nations."

Canada

What does the CER do in a response?

- Informs the IAMC and Federal partners.
- Determine if we will deploy emergency management and/or compliance staff.
- Activate our emergency response centre.
- Work with Indigenous Monitors.
- Join Unified Command.
- Take over response if company is unable to respond.

Canada Energy Regulator | Régie de l'énergie du Canada

How does the CER provide oversight during an Emergency Response?

- Polluter responsible for response.
- Oversee company's response.
- Participate in Unified Command and other areas.
- Lead federal regulatory agency.
- Ensure other agencies and organizations are involved appropriately.
- Work with IAMC to ensure Impacted Nations are included in the response.

Canada

What Happens at the CER after an Incident Response?

- Enforcement.
- Reclamation and clean-up.
- Ensure the polluter is paying the costs for damages incurred by any person, Indigenous governing bodies, or government institution.

Thank you
